

## Price Increase for Raypak Products and Parts

---

Recently, we sent out a bulletin alerting our customers to increases in costs to manufacture and ship our products and our efforts to offset these increases. We had hoped that some increases could be mitigated and some would be short-term, but costs are steadily increasing with no relief in sight.

As a result, Raypak is announcing a price increase up to 8% on whole goods and up to 12% on select parts effective July 1, 2018. We will provide a detailed electronic list of our increases by mid-June.

As always, we want to thank you for your strong support of Raypak products and we look forward to working with you in 2018!
