

Zodiac Pool Systems has made every attempt to reduce our operating costs to mitigate increases in production, but despite our best efforts, the soaring prices across many commodities—from copper and steel to polypropylene and ruthenium—have made it necessary to institute price increases that reflect the inflated costs.

The **new prices will take effect on August 1, 2018** across our portfolio of Jandy® Pro Series, Polaris®, and Zodiac® branded products. The **increases will range between 3% - 10%** depending on the individual product category.
