

July 17, 2018

To our valued customers,

As of September 1<sup>st</sup>, CMP will be implementing a price increase. We make every effort to absorb as many inflationary cost increases as possible. However, due to the broad and significant rising costs in our supply base such as Titanium/Ruthenium, PVC, ABS, Corrugated, and Fuel/Freight, we will be passing along a portion of these increases. This year we will be changing the structure of the price increase and implementing it by product categories. The table below provides the details.

<b>CATEGORY</b>	<b>% INCREASE</b>
General	4%
Maintenance	3%
Drains	4%
Brilliant Wonders (except 1-1/2" Lights)	5%
1-1/2" Lights	12%
Natural Wonders	3%
Valves	3.5%
Replacement Parts	5%
Spa Parts	5%
SGS	9%
DEL	4%

\*Note: Parts pricing is subject to change without notice.
