

February 1, 2019

Dear Valued Customer,

Due to the inflationary pressures that have affected many companies, it is necessary for us to implement an additional price increase to address the surge in costs for both domestic and imported commodities. Please be assured that Pentair has exercised our purchasing power to minimize the impact of these volatile commodities as our goal is to always offer an excellent value at a great price.

To that end, whole goods and parts* will increase by **two percent (2.0%)** and this new pricing will take effect on April 1, 2019.

Thank you for your continued support of Pentair products.
